To whom it may concern,

At the end of October 2005 our business office suffered severe damage due to the effects of Hurricane Wilma. A great amount of research was conducted to find a reliable and professional roofing company to repair the considerable damage to the roof of our office building. Finding an honest, reputable and dependable roofer after a major hurricane can be a serious challenge. After checking out a number of firms, we decided to use Per-Max, since it seemed to be the trustworthiest of the various companies we interviewed.

From the initial quote to the final inspection, Per-Max's dedicated project management kept us well informed, addressed any concerns in a prompt manner and kept the project on track. The Per-Max crew was very courteous and demonstrated knowledge and vast experience. The work site was always kept clean, the entire installation went smoothly, and our business was never interrupted.

Per-Max exceeded our customer expectations.
