RFP#: 119916

RFP Title: Pool/Spa Heat Pumps
Oak Hammock In The Brooks

ABOUT THIS REPORT

Please review the following Proposal Report in its entirety. Once reviewed, please log into your free, online manager account and report your community's position on the matter within 15 days of close. Reporting the status or outcome of an RFP will instantly give all vendors, who worked diligently in providing a free estimate, the proper notification of where they stand.

CLEANING UP THE MESS

This proposal report utilizes a patent-pending process to **centralize** all related bids for a more **consistent** format. The end result is less paperwork to manage and less time spent on making an informed decision.

PROTECTING THE COMMUNITY

Each and every vendor who submitted a quote for this RFP has met, or exceeded your predetermined **minimum requirements** for liability insurance, worker's compensation, & licensing. Supporting documents (insurance policies, licenses, etc.) are provided in the proposal packet as part of this sealed bidding process. In addition, every vendor within this report has an "**apple rating**" that is based on the quality of their work and customer service with other communities. This should reduce the likelihood of hiring a "fly by night" contractor that may leave a project unfinished, completed poorly, and/or without warranty.

UNDERSTANDING A VENDOR'S PRICE

Vendor pricing can vary greatly, even when compared "**apples-to-apples**." Some of the many reasons for varying quotes include acquisition fees, insurances, employee benefits, sales commissions, warranties, capital equipment, quality of workforce and materials, experience of estimators, and profit margin. By having multiple bids through a competitive, sealed bidding process, you have a better chance of a lower cost.

STAYING ORGANIZED

Any information received through this software system will be saved for future reference and use. This includes pictures, proposals, scopes of work, and any other documents related to a proposal request. All can be retrieved by simply logging into your free online manager account.

THIS IS NOT A SEALED BID. ALL PRICES WERE VISIBLE UPON BID SUBMISSION FROM VENDORS.

Pool/Spa Heat Pumps
Oak Hammock In The Brooks | RFP #119916

ITEMIZED PRICING BREAKDOWN

DESCRIPTION	VENDOR1	VENDOR2	VENDOR3
Company Logo:			
Company Name:	ClearWater Pools of Collier County, Inc.	COMMERCIAL POOL SPECIALIST, INC.	Symbiont Service Corporation
Line Item #1 Pricing: Pool/Spa Heat Pumps	\$25,191.00	\$38,800.00	\$32,353.00
Line Item #2 Pricing: Pool Cooling	\$0.00	\$0.00	\$0.00
TOTAL AMOUNT PROPOSED:	\$25,191.00	\$38,800.00	\$32,353.00

LINE ITEM #1: Pool/Spa Heat Pumps.

Pool & Spa Heat pumps -

Pool: Specify required equipment to maintain up to 80 degree F water in the pool during lowest winter temperatures and lowest local lake temperature.

Spa: Specify required equipment to maintain up to 110 degree F water in the Spa during lowest winter temperatures and lowest local lake temperature. NOTE: In operation there must be a settable limit for the Spa based on applicable regulations, usually 107 degrees or lower.

- 1) Install Heat Pumps on the pool and spa, to be linked with the lake for source water. Heat pump materials are to be corrosion resistant for 20 year service life expectancy: Typically titanium on the pool side, copper/bronze on fresh water lake side.
- 2) Equipment to be installed on new concrete slab or pads. Location to be approved by Board, and may require concealment depending on size/location.
- 3) Screen/sieve/filtration system for lake water to assure constant flow to all systems and prevent damage to equipment. Any servicing requirement should be easily accessible and serviceable.
- 4) Pump system for lake water.
- 5) All necessary trenching to lake water to be done with minimal disturbance to surrounding landscape. Fill and replace sod.
- 6) All Electrical to be included. Verify existing service and potential additional need.
- 7) Permit and other fees are to be included in pricing.
- 8) Clearly specify whether the system is to be reversible for cooling the pool in summer. If not included, specify up-charge for this capability.
- 9) Provide complete site cleanup.

File(s) Provided to Vendors: None

ClearWater Pools of Collier County, Inc.:	LINE ITEM PRICE: \$ 25,191.00
NOTES: 1) ClearWater Pools, Inc proposes to install two (2) WSO5 AquaCal Heat Pumps (water source) to take and return water to the nearest lake, to meet the pool heat and cool needs. Also, we will install one (1) WS03 AquaCal Heat Pump for the required heating of the Spa that will use the pool as it water source. 2) A 12 foot by 4 foot concrete pad will be poured at the location of the present heater for the new equipment 3) Piping from the lake will be connected with a threaded connector for easy access to the screen/sieve at the end of the pipe in the lake. A nylon mesh box will incase the lake end of the pipe. Also, an in-line filter (like irrigation filter) will be installed on the line ahead of the well pump from the lake. 4) A 1hp GT-10 irrigation type pump/motor will be installed to bring water to the Heat Pumps w/check valve. 5) Trenching and all new piping will be included, with necessary valves for control of flow, including a by-pass of the heat pumps for future mantaince issues. 6) All new breakers to be installed, and necessary disconnects and all new wiring in sealtite and bond wires included 7) Permits are not required for changing existing equipment 8) System is reversable at no extra cost. 9) Ditch digging and refilling and sod cover is included, as well as general clean up of work site. Payment schedule required: 50% upon signing contract. Balance due upon completion and your inspection. Ron Coulter, Owner, ClearWater Pool, Inc. All work is warranted for one (1) year. All equipment (Heat Pumps and Lake Pump) are warranted by manufacturer; as specified by their product brochures. References: References of Installations in your general area include: Saga Point in CopperLeaf - major Heat Pump and Salt Chlorine installation - waterfall system seperation to meet flow needs StreamSide @ SpringRun - Hot and Cool Heat pump installation Hidden Lakes @ SpringRun -Waterfall separation system for better flow - Heat Pump and Spa Heat installation Autumn Lake @ SpringRun -Heat and Cool Heat Pump installation All the above association presidents may be contacted via, Ms. Mickey Sudut , IPM Mtg - 963-5265
