NOTES:

PROPOSALS REGARDING REMEDIAL ACTIONS SHOULD BE SUBMITTED BY FLORIDA LICENSED ARBORISTS WITH PROPER CREDENTIALS AND INSURANCE. THE BOARD OF DIRECTORS WILL THEN HAVE PROFESSIONAL INFORMATION TO EVALUATE. ALL TREES ARE NOT SHOWN, DUE TO INSIGNIFICANT SIZE, UNCERTAINTY AS TO SITE BOUNDARIES, OR INADVERTANT OMISSIONS. IT IS POSSIBLE THAT SOME TREES/PALMS HAVE BEEN IDENTIFIED INCORRECTLY. A QUALIFIED ARBORIST CAN CLARIFY. MANY LARGE CANOPY TREES ARE MUCH TOO CLOSE TO BUILDINGS, DRIVEWAYS, SIDEWALKS, ETC.. OBJECTS ARE DAMAGED, AND TREES SHOW SIGNS OF THE STRESS. MOST OF THE PALMS NEAR BUILDING 7 ARE DAMAGED, APPARENTLY BY THE USE OF SPIKES TO CLIMB THEM, ESPECIALLY FOR TRIMMING. REPUTABLE ARBORISTS DO NOT EMPLOY SUCH TACTICS, AS PALMS NEVER HEAL. THE LANDSCAPING IN THIS COMMUNITY WAS VERY POORLY PLANNED, AS EVIDENCED BY INAPPROPRIATE SELECTION AND PLACEMENT OF MATERIALS. SHORT AND LONG-TERM PLANS SHOULD BE DISCUSSED, CONSIDERING OPINIONS OF ALL OWNERS.

Paul
