*Designates exception for 1 or more line items. Please see vendor notes for details.

LINE ITEM #1: Expansion Joint Project GI 3_4.

Design to waterproof existing expansion joints that have failed, resulting in significant leaking in many areas:

- 1) This is 6 year old building, two buildings separated by a common area pool and clubhouse above a underground, continuous parking garage. Including garage it's 8 stories in height. WCI was developer. Example photos attached to this line item.
- 2) We are looking for your firm to provide an engineering proposal, to specify a permanent corrective/retrofit solution that will both serve the original function yet be water-tight for a minimum of 20 years before major servicing. Economically serviceable gaskets with less than the expected service life would be acceptable.
- 3) Scope of Work deliverable shall be specifications, drawings, and instructions for implementation.
- 4) The Board may wish to have a presentation regarding your proposed solution. Please also note in "Exceptions" if there will be additional charges (and if so what charges) for pre-award or post-award presentations to the Board.
- 5) The Board would like with your proposal a non-binding approximation of the scope and range of costs potentially involved with a typical project of this scale for the solution you propose.
- 6) If you represent an Engineering-Build firm, you may also propose the full scope of work for the project. Do so ONLY as an ALTERNATE proposal. Your PRIMARY PROPOSAL should be for the Engineering ONLY. You may contact CAMAssistant for help in providing an ALTERNATE Proposal.

Attachment for Line Item 1:ExpansionJoints.jpg**VENDOR 1:****LINE ITEM PRICE: \$ 5,000.00**

NOTES:This proposal does include two optional services for bidding and/or construction administration.

Also included in this proposal is a 2-hour* report out/discussion with the client to present and review findings at the conclusion of the project.

* "2-hour" reflects the client's 07/26/2012 requested revision as relayed to CAM Assistant then subsequently to KEG, from KEG's typically included "1-hour" post report discussion to a "2-hour" post report discussion. This is the extent of changes authorized by KEG to this proposal. - Linda Cavalieri

EXCEPTION(S): This does include one 1 hour presentation/meeting pre-award or post-award client select.
