

Sandee Breiling
Director of Security
Security Committee
DC Ranch Association
VIA VENDOR CENTER

October 16, 2014

Dear Ms. Brieling and the Security Committee,

Thank you for the opportunity to provide our proposal to DC Ranch Association.

At Securitas Security Services USA, Inc., we are committed to protecting America's homes, workplaces and communities today and far into the future. With a strong foundation of over 450 branch managers coast-to-coast employing over 103,000 people, we are able to provide our clients with professional, experienced security teams who are experts at what they do.

Securitas has a dedicated support team that focuses only on common interest communities. A representative from Securitas management attends all safety meetings and assists the Management to enhance the security program. We have set up a program to make sure you only have the best Security Officers at DC Ranch. All Security Officers go through individualized screening and specialized training. We take the time to make sure the Security Officers are prepared prior to allowing them to work at DC Ranch. And once we get them-we have a plan in place to keep them!

Securitas has created different training programs that we feel will enhance your security program. All Security Officers assigned to DC Ranch will be required to go through specialized gated community training. This will help the Security Officers understand how to deal with different situations pertaining to construction visitors as well as dealing with homeowners.

If you need any further information please feel free to contact me.

Thank you so much for the opportunity,

Sincerely,

Amy Naccari
Business Development Manager
