LINE ITEM PRICE :

\$ 20,989.00

VENDOR 3 NOTES:

NOTES :SCOPE: Furnish and Install three new Sirit RFID readers. One will be located at the parking entrance of Bldg 3001 and the other two will be located at the ramp and parking garage entrance of bldg 3000. New readers will be wired back to the existing Kantech Access controllers. We will mount two of the readers on aluminum poles powder coated in white and the third reader will be mounted to the parking garage entrance wall.

Turnkey Price includes applicable tax.....\$ 21,750.00

Includes:

BLDG 3000

Qty 2each :

Sirit Reader, ID MAX Pro, Sirit Cable, 15/ 20foot, Outdoor Aluminum reader Bracket, Cable Management, Swivel 360 degrees, Tilt 120 degrees, Max load 22 lbs.

1 Lot of 18/6 Stranded Shielded Cable with Gray PVC jacket

6 Linear ft of 3x3x1/8 Aluminum Square Post to mount new RFID reader.

1 Lot of 3/4" pvc conduit, connectors, couplers, straps, and all electrical materials required to complete job

4 each Galvanized Wedge anchors.

Note: We are assuming the Existing Access Control System is in good working condition and is compatible with standard 26 bit Weigand Format for new RFID Readers. Also, others shall remove and replace all pavers at the ramp entrance of Building 3000 to run low voltage conduit across ramp and back to existing

control panel in Valet office.

BLDG 3001

Qty 1each :

Sirit Reader, ID MAX Pro, Sirit Cable, 15/ 20foot, Outdoor Aluminum reader Bracket, Cable Management, Swivel 360 degrees, Tilt 120 degrees, Max load 22 lbs.

1 Lot of 18/6 rated for Direct Burial Stranded Shielded Cable with Gray PVC jacket

6 Linear ft of 3x3x1/8 Aluminum Square Post to mount new RFID reader.

1 Lot of ¾" pvc conduit, connectors, couplers, straps, and all electrical materials required to complete job

4 each Galvanized Wedge anchors.

Note: We will run a new 6 conductor Shielded Direct Burial rated cable from the entrance barrier Gate to the junction box on building wall where the current access controller is housed. We will use existing cable from that point back to the main access controllers located behind the Security Desk.

600 Sirit Tags, Type Sirit IDMAX Passive - Identity Max Windshield Transponders (Non-Transferable)

Note: The tags mount on the inside of the vehicles front windshield. They will become inactive if they are removed or stolen. Be advised that 1 to 2 percent of autos produce interference which will reduce the read range substantially . As an option Front-End License Plate and Headlamp Transponders are available as an option. Allow a reordering lead time up to 3 weeks.

Installation includes: All equipment as specified above, supply and mounting of equipment and installation of programming software, Final connections, testing, training of system operation. (1 hour maximum included) and final walk-through. Customer is responsible for all data entry/programming.
