To Whom It May Concern:

Dear Sirs:

Mr. Juan Carlos Montana, owner of Per-Max Group Inc. was referred to me by a friend and after meeting with him and discussing my project and going over all the details and pricing, I realized I was dealing with a professional company. The work in question was a delicate roof job that was completed with optimum results.

From that day forward Mr Montana was used on various projects at my office and home and many others I referred to personal acquaintances. Mr.Montana is a highly motivated individual, for instance, in my projects he made sure to work close with me and ensure that the job specs were not only met but exceeded, and that at all the work conducted was to be performed in a highly professional manner.

He is an intelligent individual. He is more than capable of managing both commercial and residential projects; he produced high-quality results and never missed a deadline. I have received this same feedback from all those who I have recommended presenting consistent workmanship and delivering excellent results.

Jobs recently completed for me by Mr. Montana include:

- VIA (Vocational Impact Assessment) office remodel and roof replacement.
- Re-roofing of my private residence (including increased thermal insulation, which greatly reduced my energy consumption).

I believe that Mr. Montana develops quality relationships with his customers, conducts business in an ethic and respectful manner, and is consistent. I would highly recommend him and his company.

If you would like additional information about Mr. Montana, I will be glad to provide it, you can contact me at 305.205.4468.

Sincerely,
