Grove Walk
Condo's in
Coconut
Grove

- VP of Condo Association, Mike Ortiz
- We recently used Vico Painting to paint our Town House complex in Coconut Grove. From the start I felt very comfortable working with Raul Ivanéz. He was very prompt in coming out to give us an estimate which was very competitive with other painting contractors in the area. One of the things that I really liked is that he works directly with Sherwin Williams and the warranty on the paint and labor comes directly from them. He also sent the Sherwin Williams rep Albert Loredó out to our property, who did an inspection and gave Vico all the specifications that needed to be met for the job and, and he came back to do periodic inspections while the work was being done.
- Raul and his painting crew were there on the date and time that we set for the work to be started and the project was completed ahead of schedule. All of the painters that worked on our complex were very skilled, professional and respectful of our property, and did quality work.
- Over all we are very happy with the way the project came out and the quality of the work that was performed by Vico Painting. I would highly recommend them to anyone that needs painting done.
- If you have any questions, feel free to contact me any time.
- Mike Ortiz
- mortiz@atshire.com

- Great job that you did for us at the Homestead Pavilion.
- We look forward to having you do our next project.
- Best Regards,
- Eric Oursler
- Director of Construction
- HRC Construction Corp.

- Vico painting crew were there on the date and time that we set for the work to be started and the project was completed ahead of schedule, and everyday till completion of the work. All of the painters that worked on our complex were very skilled, uniformed professionals and respectful to our property, and did quality work.
- We are very happy with the project and the quality of the work that was performed by Vico Painting.
- I would highly recommend them to anyone.
- Please contact me.
- All the best,
