PROPOSAL REPORT

Association Services for CA changed test

Simon George

Pacific Beach Residency

RFP#: 111127

MILDSTONE FIRST TEST RFP

ABOUT THIS REPORT

This comprehensive report includes all of the participating vendors and their responses, based on the identical scope of work provided to each company. The first page of the report includes an easy-to-read comparison of the more essential items related to each vendor, including contact information, compliance status, and proposal pricing. The second page includes a breakdown of each vendor`s price, line-item by line-item. Following the second page are complete responses to the scope of work provided, including the vendor`s recommended solution, warranties, and attached documents (if applicable)..

PROTECTING THE COMMUNITY

Each and every vendor who submitted a quote for this request has met, or exceeded, the predetermined minimum requirements for insurance and licensing (if applicable). Supporting documents (insurance policies, licenses, etc.) are provided in the digital version of the entire proposal report. In addition, every vendor within this report has an "apple rating" that is based on the quality of their work and customer service with other communities. This should help increase the likelihood of hiring the best contractor at the best possible price.

UNDERSTANDING A VENDOR`S PRICE

Vendor pricing can vary greatly, even when compared "apples-to-apples". Some of the many reasons for varying quotes include acquisition fees, insurances, employee benefits, sales commissions, warranties, capital equipment, quality of workforce and materials, experience of estimators, and profit margin. Multiple bids through a competitive bidding process is an important part of the solution to finding the right vendor for the job.

STAYING ORGANIZED

Any information related to this report has been digitally recorded for future reference or use. All related materials will be available for review in case a re-bid, punch-out list, warranty request, or dispute regarding the final product or service with a hired vendor is required.

THIS IS NOT A SEALED BID. ALL PRICES WERE VISIBLE UPON BID SUBMISSION FROM VENDORS.

EXCEPTION(S): NONE

LINE ITEM #2: Tiles work

We provide innovative, advanced and scalable software, web application and product development solutions that are cost-effective and that will enable our clients to get faster ROI. We have developed significant expertise focusing on new and advanced technology areas where we are among the best in the industry today. We are one of the leading mobile apps engineering and award winning CMS development company in the world.

File(s) Provided to Vendors:

Marine Corp Developments:	LINE ITEM PRICE: $ 2,500.00

NOTES: Ourdevelopment processes for delivery are mature, flexible, based on theproject at hand and customer visible.

Wehas architected, designed and developed many portal, internet andintranet applications for large organizations in diverse industryareas.

DevelopmentMethodology

Rizefollows a well-developed and proven methodology based on agiledevelopment process to develop each project. Main phases of thisdevelopment methodology involve study phase, design phase,development phase, testing and deployment phase.

Wegive first priority to defining the project objective, business goalsand value proposition of the project and devise a project plan basedon client views. Benchmark with reference and competitor projects anddesign the project for effective presentation and user experience

Briefoverview of our development methodology

- Project Initiation and Scoping

- Design of the Project Architecture/Framework, Flow and Wireframe document

- UI Design: Design of the HTML pages

- DB Design

- Programming

- Testing: Automated and Manual

- EUA (end-user acceptance testing)

Wewill ensure the projects we develop will have

- Standarddevelopment frameworks (MVC)
- Optimized design of the Database
-Scalable and rapidly deployable solutions
- OOPS based coding
-Standard coding practice for better performance and highavailability
- Search engine friendly practices

EXCEPTION(S): NONE

LINE ITEM #3: Beas line

As a customer centric and technology focused company, we are at the forefront in learning, upgrading and implementing new and advanced technologies. We adapt ourselves to new technology initiatives and development practices by continuously updating in new technology domains.

File(s) Provided to Vendors:

Marine Corp Developments:	LINE ITEM PRICE: $ 2,500.00

NOTES: Ourapproach to developing rich internet application starts fromunderstanding the actual project requirement first. Understanding thebusiness goals of the client and identifying the functionalities willenable us to design the project with a right combination oftechnologies and frameworks that will bring in the desiredreliability, scalability and maintainability.

HTML5Development

HTML5combines all the strengths of HTML4, JavaScript, CSS, JavaScriptlibraries and Flash in to a single specification. With mobiles andtablets quickly adopting HTML5 features and with all the majorbrowsers support, it is fast gaining in popularity as a HTML standardof choice. HTML5 adds a lot of value to building static and dynamicweb applications with improved accessibility, modular, lightweightand more powerful CSS techniques.

Weare experts in developing HTML5 sites that are compatible withiPhone, iPad, Android devices and Rich Internet Applications. HTML5sites offer many distinct advantages in functionality like

- Speed

- Clean code

- Consistency

- Accessibility

- Improved Semantics

- Interactivity

- Offline Cache

- Client side DB

- Geolocation API

- and many more..

HTML5sites have built in search engine friendly features and will enablesearch engines to fetch content and links intervened in flash.

EXCEPTION(S): NONE

LINE ITEM #4: Main line work

We are committed to providing solutions that are simple to use and cost-effective, that meet the specific set of needs defined, and that are adaptable to meet future needs..

Marine Corp Developments:	LINE ITEM PRICE: $ 2,500.00

NOTES:

JavaFX

AScripting language for developing Rich Internet graphic applicationtools. Rize has been working on Java, JavaME and JavaFX to power thevarious interactive applications with cross browser and devicescompatibility.

Silverlight

Silverlightis a framework for Web application development which is based on .netframework. Silverlight is ideal for companies that have alreadyinvested in Microsoft.net technologies and are familiar with .Net tobuild enterprise applications.

Flashand Flex

Weuse flash to design and develop heavy interface enhancements, graphicanimations, video and audio features.

jQuery

jQueryis a fast, cross-browser JavaScript Library that simplifies HTMLdocument traversing, event handling, animating, and Ajax interactionsfor rapid web development.

Rizehas been using jQuery in a number of projects to simplify socialnetworking and web 2.0, Web 3.0 applications. jQuery has a richlibrary of functions for AJAX web development.

Others:

AJAX

Wehave strong expertise of working on AJAX based dynamic applicationsthat are built on PHP and Ruby on Rails.

AJAXapplications do not require any plug-ins to function and rely only ona combination of techniques currently built into all major webbrowsers. These techniques allow a professional developer to create arich user experience without costing performance. Using AJAX,enterprises can reach a broad audience of customers, partners, andemployees with rich content and interactivity.

Advantages

- Rapid development time for faster time to market requirement

- Flexibility of MVC design pattern

- Enhance your Web 2.0/Web 3.0 development to bring more value to business with RIA practices
